Gilmore's bread at Reavis'.

Mr. W. McD. Tait spent Sunday at Cardston.

Mrs. Harding Brewster, of Lethbridge, spent Sunday here.

Dr. J. S. Wray made a flying trip to Cardston last week end.

Mr. Sidney Reeves who has been working on the government surveying for the past few months was in town during the Fair.

Mr. Robert Iley of Cardston was a business visitor in town last week.

Mr. C. D. Fox of Lethbridge was a visitor in town this week.

Mr. H. S. Allen was a business visitor at Lethbridge on Friday last.

Two very good picture shows were put on at the Alta on Friday and Saturday last.

Dr. and Mrs. J. Elmer Amos who have been at Cardston for several weeks were in town during the Fair. Dr. played his usual good game with the baseball boys.

Mrs. C. M. McCarthy, of Lethbridge was a guest of Mr. McCarthy's parents, Mr. and Mrs. Chas. McCarthy, during the fair.

The Confectionery formerly known as the Model will hereafter be called the Delta, the name being changed by Mrs. Sparks who now has it in charge.

Have you settled with the Editor yet? He needs the money.

The dances given at the Opera House on Friday and Saturday last by the Agricultural Society, were well attended and a very good time had by all present.

The weather at the beginning of the week was fine for telecasting and it is hoped that it will continue for a few weeks.

Mr. and Mrs. John Anderson left on Thursday morning for Guelph, Ont., where they will enter the Ontario Agricultural College. This is Mr. Anderson's 4th year at the college and we wish them continued success in their studies.

Mr. Budd Love, brother of Miss Henrietta Love, our telephone manager, had three ribs broken while moving a building on the Cazier ranch near Cardston, last week.

Sanitary drinking fountains have recently been installed at the public school.

King George has bestowed the commission of general in the British army on Louis Botha, who some ten years ago was fighting Great Britain in South Africa with all his might. General Botha is now the premier of the Union of South Africa and a loyal subject of the king.

In the quaint cabin of the old frigate Constitution a little group of naval officers gathered on the evening of August 19th, and in silence drank a toast to the ship, Captain Hull, who commanded her in the battle with the Guerriere, and to the crew. It was the only ceremony that marked the one hundredth anniversary of the event that turned the tide of the War of 1812, but its very simplicity made it impressive.

Path-finding Motorist Making Good Time.

New Westminster, B. C. Sept. 9.—Word received at the office of the Canadian Highway Association yesterday afternoon conveyed the information that well over a third of the coast-to-coast automobile journey now being attempted by Mr. Thomas W. Wilby had been accomplished. Mr. Wilby reached Toronto on Saturday, having made a quick run to that city from Montreal, where he spent some time in the company of Mr. Tarte, proprietor of La Patrie, one of the staunchest supporters of the Good Roads movement in Eastern Canada.

Everywhere on his trip through the Maritime provinces, Quebec and Ontario, Mr. Wilby has been acclaimed as the herald of a new era of motor travel, and the fore-runner of a large army of tourists. That he has not encountered serious difficulties during his journey westward is proved by the remarkably good time he is making, he having only taken eleven days to make the trip from Halifax to Toronto. If it is possible for him to continue his journey at this rate of speed he will reach the Pacific coast in little more than five weeks.

Several cities along the route have presented Mr. Wilby with flags, but the pennants of the Canadian Highway Association and the Automobile Club of Canada continue to occupy the places of honor on his machine. To the letters of greeting sent Mr. W. J. Kerr, president of the Highway Association, from the civic authorities of Halifax, have now been added several communications from other bodies, and there seems every prospect of the first coast-to-coast motor mail assuming bulky proportions before New Westminster is reached.

Miss Marie Skousen is employed at the Model Confectionery.

Miss Blanche Warden is now working at the Hill Millinery parlors.

Mr. McD. Tait left on Wednesday morning's train for Welland, Ontario, where he is to be married.

The Knight Academy opened on Monday morning with 30 students most of whom are taking the regular course. Many others are expected to register during the next few days.

The Raymond Military Band expects to leave on this evening's train for Cardston where they are to furnish the music for the Fair which is to be held there on Friday and Saturday.

Some idea of the frame of Raymond as a horse breeding centre is supplied in the statement of Judge Stark of the horse department of the Canadian Agricultural fair. Mr. Stark is manager of the Edmonton exhibition, and is a keen lover of horses. By request he consented to act as judge at some of the fairs throughout the province, and upon asking Hon. Duncan McPhail, Minister of Agriculture, where he would find the best horses in the southern portion of the province, that gentleman answered unhesitatingly, "Raymond." Mr. Stark certainly was not disappointed. He was rather surprised, and declares that it was one of the best displays of horses he ever judged.

RAYMOND FAIR WAS BIG SUCCESS

The Raymond Agricultural Exhibition held here on Thursday, Friday and Saturday last, was a grand success notwithstanding the fact that the weather was extremely chilly, there were large crowds at the grounds on all three days. The exhibitions were of the finest quality and were in large numbers. The poultry, cattle, horses and swine exhibits were the best that have been shown here for a long time and it was said by the Judges that Raymond had the best display of horses in Southern Alberta, while one Poland China Boar was said to be the best in Canada. The art exhibits were very good as also the school and domestic exhibits. The booth of King Brothers Co., took first prize and was very nicely arranged, being made up of furs and muffs, and other booths were also very attractive. Owing to the fact that the weather was very cold the sports were not as lively as they generally are at the Fairs, but the baseball game between Warner and Raymond was very good and ended at the 7th innings with a score of 4 to 5 in favor of Raymond, Warner was handicapped owing to the fact they had only six of their own players, but the substitutes helped considerably. The races were very good and the prize money was large.

The weather being fine the sports would have been much better and the Fair in general would have been appreciated much more than it was.

BIG AUDITORIUM BEING ERECTED.

Lethbridge, Alta., Sept.—Ground was broken the first week in September for the erection of an auditorium capable of seating 2,000 people, with stage room for upwards of 200 more, in preparation for the best meetings of the International Dry Farming Congress to be held here the fourth week in October. With only five weeks ahead in which to construct this mammoth coliseum, the contractors have a large force of men employed, and are pushing the work with might and main.

The auditorium is being built by C. J. Eckstrom, a local spirit and citizen who recognized that the hall facilities were likely to be inadequate for the congress, and who offered to rush the building to completion and turn it over to the board of control for their use on October 10th. Although a week or so delayed in the beginning of operations, there is every assurance and promise that it will be completed by the time set.

It is contemplated to hold a grand orchestral concert on two evenings early in October, prior to the congress week, with selections by the Cardston Choral Society of 150 voices, which has been training for weeks in preparation for the congress, giving to the people of Lethbridge a sample of the fine singing and the enthusiastic meetings in store for them.

Reputation is an invaluable asset. Do the products of your farm have a reputation? If not, why not?

NEW LICENSE BY-LAW PASSED

At the last meeting of the Council the minutes of which were unavoidably omitted from the last Raymond budget, a grant of \$575 was made to the Board of Trade with the stipulation that the board raise a like sum. The matter was introduced by the new president of the board of trade, O. H. Snow, who stated that the money would be used in paying off the past indebtedness of the board and for the construction of a best place at the forthcoming International Dry Farming Congress at Lethbridge. All the council gave the matter their hearty support, and rose loyally to the call of the board of trade.

The new municipal license bylaw was given its third reading and passed unanimously. The bylaw among other things, provides that pool halls shall close at 10 o'clock. The license remains the same. The new law will mean a great deal to the finances of the town, as all the business houses and individuals engaging in business will be obliged to pay a license.

Board of Trade having Tag Day.

A bevy of pretty girls are tagging everyone in sight. The badge is now a popular one and everyone is wearing a Board of Trade badge. The object of the tag is to raise funds for the Board of Trade exhibit at the Dry-Farming Congress, and from all reports it is succeeding well in its purpose. The tag reads: "You're it. What? A Raymond boister, working with the Raymond Board of Trade to erect a best place at the Dry-Farming Congress. Raymond first last and always."

The model Confectionery formerly owned and managed by Mr. R. A. Amos has recently been leased to Mrs. Sparks for 6 months. Mrs. Sparks is well known in town and we feel sure that she will receive the support of the public in general.

Last Wednesday evening Miss Uwards Knight, daughter of Mr. and Mrs. Raymond Knight, underwent an operation for appendicitis. The operation was most successful, and Miss Knight is improving very satisfactorily. Drs. Mewburn and Lovering, of Lethbridge, and Dr. Wray of Raymond had charge of the operation.

The Raymond Military Band, which has established its reputation as a musical organization of rare class, supplied the music for the Warner fair Tuesday and Wednesday last week. The boys report that they were treated royally by the good people of our sister town. Visitors to the Warner fair declare that it was a great success, Lethbridge Herald.

A large crowd was at the Opera House on Thursday evening last to greet the Bell and Butler Company in "Zeke" the country boy. The play was well played and pleased the audience immensely. Mr. "Curley" Butler as Zeke was a typical country boy and kept the audience in an uproar throughout the entire performance. The balance of the company were good. The trick violinist was an artist in his line.

Alberta Towns Petition For Other Taxes Than are Provided by Single Tax.

Wish to have Option to Supplement Revenues—Resolutions Adopted at Innisfail Municipal Convention.

From amid all the discussion waged at the session of the eight annual convention of the Union of Alberta Municipalities closed at Innisfail yesterday, a few reflections obtrude themselves.

The invigorating interest with which the smaller towns of the province awoke in their own behalf has to be regarded as one feature in particular boding well for the more uniform and possibly better management of their affairs. The unity of interests displayed affords ample basis for an enlarged organization of municipalities which will permit the most advanced step being taken along lines most assimilative by towns and villages.

That the imposition of a tax on land alone somewhat commonly alluded to in the convention as Henry George's single tax; that it is an unmitigated blessing certainly was not the unanimous opinion; but a desire to give it a fair chance to operate with best effect seemed to actuate the delegates.

However it has to be noted that the resolutions adopted by the union of municipalities call for a wider system of taxation. They request permission for the towns to tax businesses, to license businesses for revenue, to tax motor licenses for revenue, and by various similar methods to supplement the revenue derivable from the so-called single-tax as imposed on the smaller towns and villages in this province.

No matter how right the rigid acceptance of single tax might be in theory, it remains a fact, nevertheless, that in practice the revenues produced by it, on assessments which are equitable and in accordance with cash values, do not meet the fiscal needs of many of the towns.

That now must have made itself apparent to the government; for that it has been advised by many of its own supporters in the legislature to modify the Towns Act in this respect is understood to be true; and that it will do so may be expected from the hints dropped by the minister of municipal affairs at the convention.

After sitting at a banquet until 1 o'clock in the morning yesterday, the forty-four men and women delegates resolved themselves into a harmonious symphony of the self sung praises of the many thriving towns represented.

Only Mayor Weaver served in nuptial admonition. He deplored that the respect for the aldermanic bodies, To what he alluded he did not make quite clear. The best that could be inferred was that Red Deer's mayor would like to have a bill introduced legislating that editors should write only what the mayoral wisdom dictates.

Subsequent conversation with his fellow mayors added the general opinion that the newspapers are the most valuable adjuncts in the municipal machinery, and that as a very general rule only that mayor or whose words do not command the respect of the community suffer any lack of prestige in their mayoral function.

The first business done yesterday was the adoption of a resolution favoring the optional imposition of a poll-tax. The resolution as introduced by G. D. Plunkett of Picher, Cree, seconded by Mr. Philips of Cardston, resolved "That the towns' act be amended to allow the collection of a poll tax in town municipalities when it is deemed necessary, but the said poll-tax shall be good for the whole province for the calendar year in which it is taken out." Ald. MacDonald and Mr. Layton had adopted a resolution to the effect that the executive of union confers with the government, concerning the proposed new city bill, to ascertain, if possible, the intentions of the government.

Delegates from smaller towns are finding it difficult in constraining the motor vehicles act, that on the motion of Mr. Plunkett, seconded by G. H. Phillips, of Edson, an amendment to the act is requested so that its intention be made more explicit regarding the powers of municipalities to license motor vehicles.

On motion, moved by mayor Armstrong the union resolved to petition the government to have places of detention for persons mentally afflicted, but not what might be termed dangerously insane, and another resolution was passed petitioning the government to have a reformatory home for unfortunate women and girls.

DANCE BOTH DAYS.

THE VALUE OF FIRELESS COOKERS

A FIRELESS cooker is invaluable to a housekeeper, especially in hot weather. The cookers are now so perfect and inexpensive the woman who does not own one is at a disadvantage when labor-saving methods are considered. Cooking during the summer in a fireless cooker is a most convenient and yet so reasonable for the most urgent. Healthful foods requiring long cooking are made palatable for the daily meal, and the weight of the cooked product from a pound of raw material is much increased.

The fireless cooker is splendid for the cheaper cuts of meat. Since tough meat should cook for a long time at a low temperature the cooker is a most excellent medium for this purpose. Steaks and so called lamb steaks seem to have a better flavor when cooked in the cooker than when cooked on the stove. Beef, mutton and lamb cooked in this way may be served as braised meat, as a stew, as a minced meat warmed in the flour and served on toast, as a hot and browned hash, or as a mince, meat turnover and other ways in which these meats are prepared. Five pounds of meat could be served for two in ten different ways, serving half a pound at each meal.

Excellent soup can be made from the leftover carcass of a fowl, mutton or neck piece of lamb or from any leftover beef bones and scraps of beef. Place in the kettle of water, add a few pieces of cold water, place on the stove and bring to a boil, then put in the cooker overnight. In the morning remove the fat, add salt and use the liquor or stock, to be reheated and flavored according to the style of soup desired.

Breakfast cereals are the most suited foods in ordinary cooking. Rarely do they receive the long, slow cooking which their nature requires because of the early rising this would necessitate. The fireless method delivers the full value of the nutrients with a minimum dependence upon the cook.

It is oftentimes a serious problem on account of expense. The fireless method makes available many dried and evaporated foods which can be obtained reasonably at all seasons. Delicious compounds can be made which rival the best. These include pearance and flavor, in most cases suggesting those usually served. Each individual piece is made in a separate, unbroken, distended, with a juicy, aromatic liquor and charged with the nature which characterizes the fruit in its prime state.

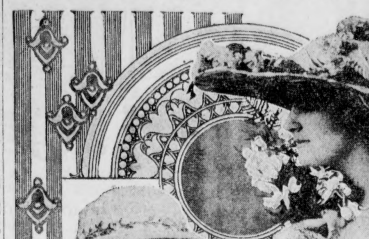

A Beach Costume

shades, all in straw or in straw with crown covered with tulle, lace or other contrasting fabric, are worn over everything from morning toilet to the trimming.

The Big Becoming Hats of the Midsummer Season

MIDSUMMER hats are in vogue. They are versatile, carry wheels and actually wheel of a perambulator. Much of their effectiveness, however, depends upon the angle at which they are pinned upon the hair. It is not always easy to succeed with this angle. There should be laws of latitude and longitude supplied by the milliner when she purchases of their creations might mean the exact angle which the brim should bear to the line of the eyes. This little attention would put an end to much of the dissatisfaction which arises upon putting a "dear of a hat" upon one's head for the first time at home.

Fig. 1—The crowned, drooping brim

It is used for the brim facing, how else? Have of color in satin and in tulle, all in black chintilly are effective. The use of the color—green, for example—elated by softy shirred black tulle or chintilly, the outside of the hat being trimmed with a great low or ruche of the lace.

A stunning big leghorn hat trimmed recently by a clever girl had its brim covered with a great low or ruche of the lace. The center of the lace cover was cut out sufficiently to fit about the low round crown and spread out over the whole of the crown. The lace ruche was a carious twist of natter blue velvet ribbon, topped by a

Sparking of natter blue coloring the this Watteau picture hat to be seen among the cuts is of this shade of blue and spotted with a pattern of white dots. The crown of pin tucked battis and lace is mounted on a drooping rim of lace, fitted with the edge with a broad facing of natter blue straw. This picture of small silk roses in its shade

The new flange brim with pompadour hat is gay and dashing. Inner brim facing of lace throws the wavy dark hair into relief. The hat faced with dowered pompadour silk or velvet with roses counteracting under the brim are very attractive this summer. One of these models is pictured faced with joy velvet, with a slight handsome flange as the only trimming.

But perhaps the most eccentric hat of the season is located the admirer. This unusual piece of headgear is nothing more than a simple shepherdess shape, the fur and air trimming giving the authorial suggestion. The hat is made of joy velvet, trimmed with plain tulle, plaiting and the eddy arranged wreath of roses.

Though most women are fond of the drooping brim which shades the face

so flatteringly, the newest of the midsummer shapes have their brims lifted. The latest model with an upright effect is the flange brim. This hat has for a foundation a cap of leghorn which fits the head snugly. Over this is a gathered ruff of shalloon lace, stiffened with a wire hoop at the edge and lifted things fashion, to show a cluster of flowers tucked under the loose of lace. This hat accompanies a frill of striped tulle, with which are worn long embroidered silk gloves and buttoned boots of white buckram.

In smart millinery each face is carefully studied so that the beauty of the features may be enhanced by the sweep of the brim, and the shape and colorings of most of the hats of the season are exquisitely tailored.

CATHERINE TALBOT

Care of the Hands in Summer

DURING the summer months the woman who is anxious to have really pretty hands will find her best chance to beautify them.

True, there is the possibility of freckles, but with care and a simple, inexpensive lotion either of these can be avoided or the redness and roughness caused by the sharp winds of the summer season, leaving the hands white and soft, with dainty nails.

To remove freckles from the hands, a lotion can be made up for a few cents at home by mixing one-half ounce each of ordinary toilet vinegar, Jamaica blue and castile soap, together with one and one-half ounces of strained lemon juice. This should be applied with a small sponge to the backs of the hands several times during the day and at night and a dusting of powder given when the lotion has dried on the skin.

During the summer months the girl whose hands freckle easily should apply the lotion every morning and night and so gradually the burn down each day and by doing this she will find her hands in perfect condition during the summer season.

Lemon juice, whether mixed with rosewater or applied pure, will be found the most valuable aid in whitening the hands and making the skin soft and smooth.

Few women realize the value of lemon juice as a cosmetic, especially in the care of the hands. Applied with an orange stick to the nails it will remove stains, soften the cuticle and loosen it, making the half moon at the base more noticeable.

Red hands are often due to other causes than those directly influenced by the weather. Sometimes they are caused by wearing gloves which are a trifle too small at others by a flow of blood to the hands. When the latter is the case it will be best to exercise the hands by working them backward and forward from the wrist. This will restore the circulation to its normal state and the redness will disappear. When tight gloves are responsible for the redness the remedy must be to get rid of them.

Women imagine that a small glove will protect the hands from the weather. It is by no means the case. Loosely fitting gloves are not only better for the hands, but give them a small effect so long as they are not extremely large and are much more comfortable in warm weather.

To remove tan from the hands a cream should be applied at night and gloves should three times too large worn for a couple of weeks. To make cream take two ounces of castile soap, two ounces of olive oil, one ounce of mutton suet and one ounce of alcohol.

Melt the soap after shredding it into small pieces, then melt the rest, clarify it and add to the soap, warm the oil and add this next, and finally the alcohol, boiling all together to an upward movement from knuckles to wrist.

STRIPED MATERIALS ARE POPULAR THIS SUMMER

STRIPED materials this summer are in fashionable favor. As rule stripes are more becoming than figured design or even plain fabrics, they are the healthiest and slenderest, the two most sought after effects this season.

There is no hard and fast rule as to the size of the stripes, and it is astonishing how many different widths there are in the season's materials. Often different widths of them are used in the same gown.

Black and white is most effective, but there are also colored stripes that are smart which are in one tone of color, but in different shades. Two shades of gold would be in perfect harmony in the same pattern. In green and blue are among the novelties that have worked out well.

Striped foulard silks are among the favorites this summer, the white and black and the black and white being the most liked. The white and black can be easily understood, looks much lighter than the black with white stripes. One advantage in favor of striped silks is the material requires little trimming, for the stripes in themselves are so effective that there is no monotony, and the rule is to use the material in such manner that these stripes can be put on at right angles with each other in the skirt and center line down the top and of the very newest fashions or mar-

These materials may be made with raw cotton and covered with fancy silk or plush or fur, or hoods and hats of the spirit of your gown.

The gown on the street room bed will probably not need washing, but there should be hung over the shoulders and hanging from the shoulders and forming a point in the center of the back and having a cape cut in one. All these garments feature the "left side."

UT a piece of heavy cardboard seven inches long and eight inches wide and shape one side of it like a coat hanger. Now punch a small hole in the center one inch from the top and tie a piece of ribbon or tape through it to make a loop to hang on.

In the lower edge make two holes six inches apart and either insert hair pins or push in two hooks to hold the skirt of your gown.

The gown on the street room bed will probably not need washing, but there should be hung over the shoulders and hanging from the shoulders and forming a point in the center of the back and having a cape cut in one. All these garments feature the "left side."

Artistic New Needlework

THE girl who likes work that has a permanent value should start this summer some butterfly or basket squares, which are joined into a wide centerpiece with a lace insertion run at right angles to the center.

When finished, is bordered with lace on each patch, put on flat. The squares are made in the following manner: Two squares, each one inch square, are joined together by the four corners with a small piece of lace.

A centerpiece that should have even, lasting style is worked in white embroidered cotton on heavy linen fabric, or on the finished baby.

Restful Sleep for the Baby

AN OUTDOOR CRADLE.

RESTLESS infants who are ill or fat or listless on summer nights may be lulled to sleep by what appears there is if put asleep in the outdoor cradle. The new invention is here illustrated. Although not a thing of beauty, it is a way to the infant.

Buy Good Clothes and Wear Them

IT is wise sartorial advice to follow the best style and what you really require, and for the occasion you need them. There are women who are always busy, and for the occasion you need them. They put them away for great occasions, which do not come in sufficient numbers to wear them out until they are old-fashioned. Then a great deal of money is lost in the wearing them, and while they ought to have been worn their owner was not particularly well dressed. Appearance

has so much to do with success in life that many women throw away their chance of getting the best out of themselves by being dowdy. A really good dress is a thing of beauty, and it is a waste of money to wear it once, while a second rate gown is always a trouble. No one feels at ease when she is not as well dressed as other people, and in good truth, other people do not look upon her with the same favor. Few women can afford to neglect the importance of their dress, if it is not of always spending money that is certainly a waste of money.

for the Home Scrap Book

PINEAPPLE is good for indigestion. The juice containing a digestive fluid similar to pepsin.

Save your lemon rinds, dry them in the oven and store them in an airtight tin. A little of this added to an apple pie gives it a delicious flavoring.

A thing worth knowing when you have to take bitter medicine is this: A small pinch of salt will remove all taste of bitterness from the mouth.

Potato balls which are saved in butter after being boiled are delicious. They should be served with a generous sprinkling of minced parsley.

Do not take time to grate chocolate. Put the desired amount in a saucepan and place over the top of a double boiler. Two squares of unsweetened chocolate are equal to a cupful of sugar.

While washing the dishes from the evening meals mix the cereal on a stick to it. All that has to be done is to go on the following morning to find it so easy to wash it to it and beat.

Freshness of the face is destroyed by putting them into water. A fresh egg will remain at the top of a bowl of water, while a stale egg will sink.

fresh will float a little higher, and a bad one will rise to the surface.

Parasols

CHIFFON is used to cover or partially cover parasols, which are in all manner of colors and designs. It is a soft, delicate fabric, and is used in all manner of colors and designs. It is a soft, delicate fabric, and is used in all manner of colors and designs.

Thursday, September 19th, 1912

One's everyday thoughts, like one's everyday clothes, need not be brilliant.

There is a lot of unused "luck" in the world that any person may have who will make a determined hunt for it.

Uplift the farm home through the education of the farmer's daughter toward greater usefulness and attractiveness in the farm house.

One of the stock judges at the Fair told Mr. Geo. E. Court that he had the best Poland China Boar that he had seen in Canada. This is very good for Raymond don't you think?

A number of complaints have been registered against the new license by-law during the past week but the people who have been doing the "kicking" must remember that the town needs money to carry on its business affairs.

THE LICENSE BY-LAW.

In a recent issue of the Lethbridge Herald reported interviews with the Raymond business men were given regarding the new license by-law in which they expressed quite general dissatisfaction and it was thought that some would be driven away from the town.

In the new town act the land holder pays all taxes. The merchant on his stock pays nothing. Should not they who receive most of the advantages of the town pay part of the expense?

McDuffie Bros. paid \$650 in taxes last year. It is very unfair for the same business to pay a license of \$50 instead! King Bros. on their stock last year paid \$500, their license calls for only \$250 if they carry a full line including harness and machinery. The Raymond Mercantile will pay the maximum price of \$250. The Hub Company's taxes last year were \$500 and O'Brien Nalders' were \$125 but in each case they were taxed for a larger stock this year.

The citizens Lumber Co. paid \$87.50 in taxes and the Equity paid \$37.50. In each case their license is \$50. The jewellers license at the same rate just equals the tax on the stock.

No change was made in the time of closing the pool hall as the time provided in the old by-law was too strict.

Besides all this, part of the businesses in town have already paid their license for the year, why should they pay again?

Since the law will not permit anything coming to a tax according to dollars on personal property or improvements we think that the Town Council has passed a piece of legislation that will be a good thing.

The Chicago, Rock Island & Pacific Railroad Company is a corporation. In order to encourage its employees to greater efficiency, it urges each one of them to become a corporation himself, at a capitalization commensurate with his salary. "Say you earn one thousand dollars. At four per cent that is the interest on twenty-five thousand dollars. The company thus capitalizes you at the cost of modern locomotive. You may not have as much pull, but you ought have as much push. You can last longer and run a good deal farther than the best locomotive ever built. Most of

you can make yourselves constantly worth more, whereas, the locomotive steadily deteriorates. Make your valuation climb to fifty thousand, to a hundred thousand. Select your food and care. Treat decently the body on which your mind depends. Read, study and observe. Like the engine you cannot do your work unless you stay on the rails where the boss can find you. No call-boy ever found a locomotive in a saloon, dive, or other place of that sort." Here is pithy council for others besides railroad men—
YOUTH'S COMPANION.

Est'd 1857
Toronto, Ont.

THE man who goes a-travelling needs clothes effective in appearance and suitable to his purpose. Travelling means hard wear. It also necessitates having clothes of impressive quality, so that the wearer may not be handicapped by an appearance open to criticism.

FIT-RITE style is the style of the best dressed men.
It means an exact fit and the practical expression of all that is most refined and worth while in men's dress.

FIT-RITE service is for the man of good taste who wants everything desirable in clothes, and yet at a moderate price. **FIT-RITE** garments meet these requirements.

\$1. Down AND One Dollar Per Week

For five years pays for an improved fruit tract in B. C. At the end of the five years it should bring you in \$500 to \$1,500 per year.
Actual Government Reports for the Kootenay Lake District show greater results from ONE ACRE

There is hardly a man, woman or child in the United States or Canada who cannot afford One Dollar Per Week to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you or your heirs.

I have set aside 500 acres of choice fruit land, and as soon as I have sold that out your opportunity is lost. I want every man, woman and child who reads this ad. to send in their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal climate, where you will have honest and congenial neighbors.

I sell five, ten and twenty acre tracts on very easy monthly payments. Also give a big discount for cash. Join one of my monthly excursions and see the country for yourself. August 10th is my next date. A big bunch went up June 27th—all bought from me except two. Pretty good evidence that what I am offering is right, isn't it? I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shores of the beautiful Kootenay Lake. I want you for my neighbor in B. C., and I am sure you will want to be when you see the country. My new way to grow apples will interest you. Also the famous Kootenay Magazine tells all about the fruit and other industries of Southern B. C. Subscription price \$2.50 per year, or sent free for year on receipt of twenty names of friends or relatives who might be interested in B. C. fruit lands. My booklet, "Homeseeking" tells you how I spent five years in the West looking for what we all want—an ideal location for a home. It's free. Write to day, giving name of reliable reference, your nationality, and amount you wish to buy.

Another Form of Senatorial Courtesy

In addition to studying railroad

rates, the question of such things, and

the tariff, Senator John M. Dixon, of

Montana, has been a student of the

general subject of ghosts. Just before

he came to Washington to begin

his service in the Senate, he was told

by a "bad man" of Montana, who had

been confined to death, that spirits

could return to this earth from the

other world.

At midnight of the day that I am

hanged, said the murderer, I will

knock at your first door in order to

prove to you that ghosts can come

back.

On the midnight in question, Dixon

was sitting in his Washington

home conversing with a friend who

would happen, for the man's manner

had impressed him greatly. The

senator was about to go to bed when

he remembered that there is a differ-

ence of three hours between Wash-

ington and Montana time. So he wait-

ed up three hours longer, but still

received no visit.

The only thing I wish I had estab-

lished, said Dixon, afterward, was

what time the affairs of the other

world was conducted.

Peruna Secret's
You Should Know

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic. Many thousands of pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.
